android app idea: student organizer
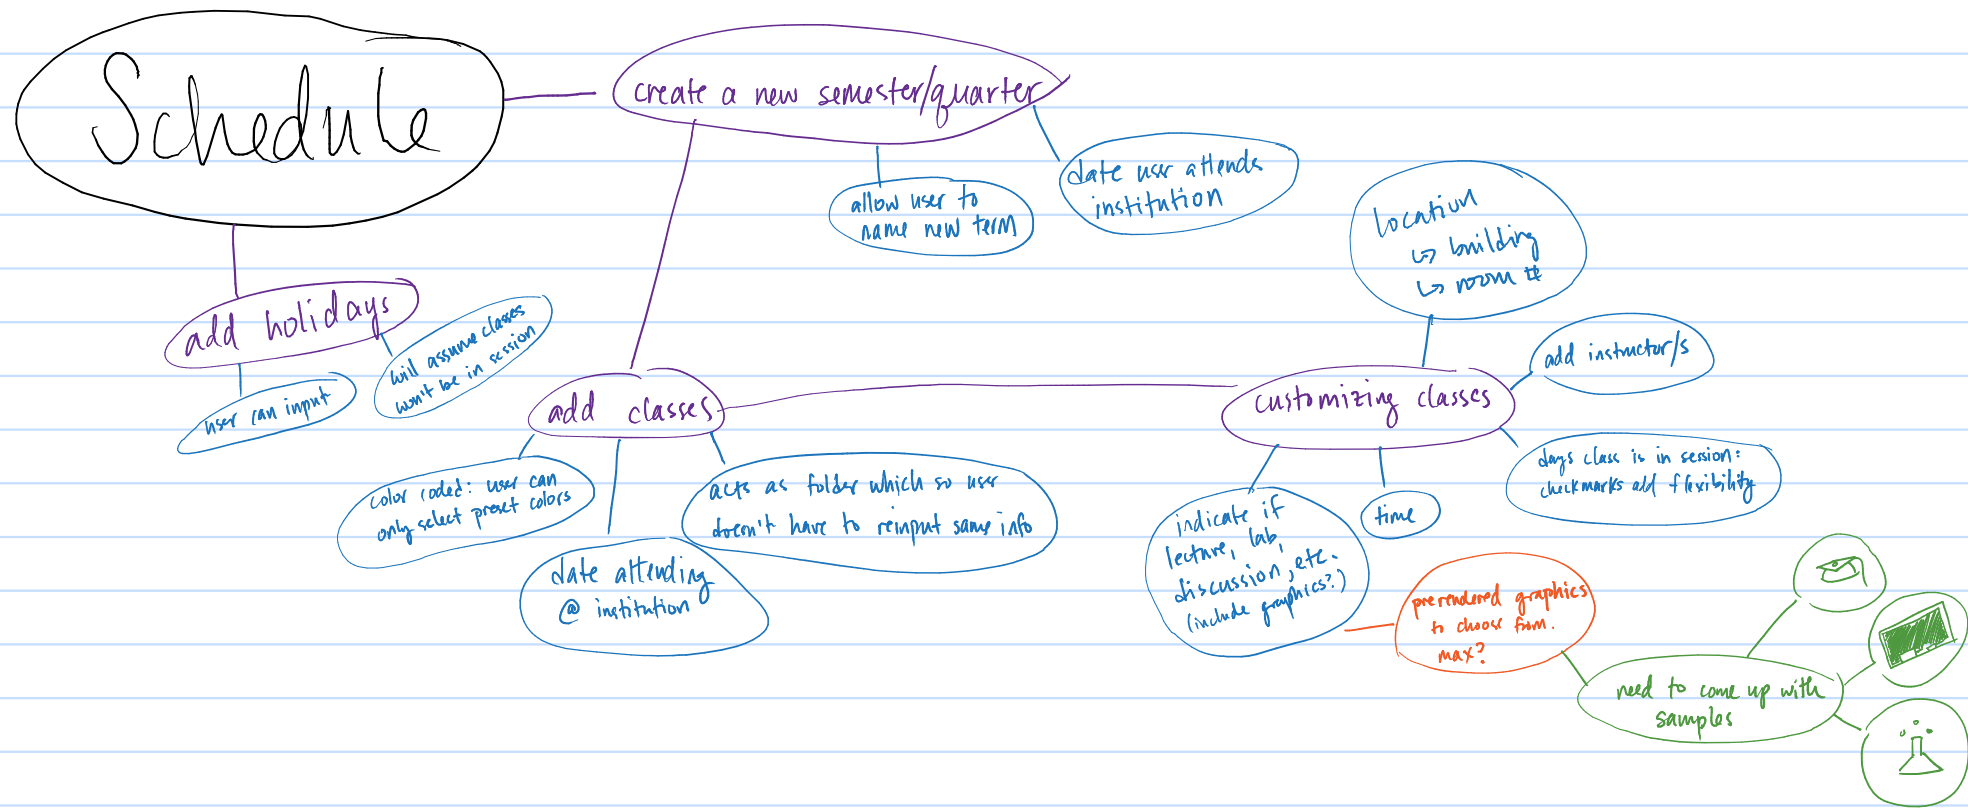

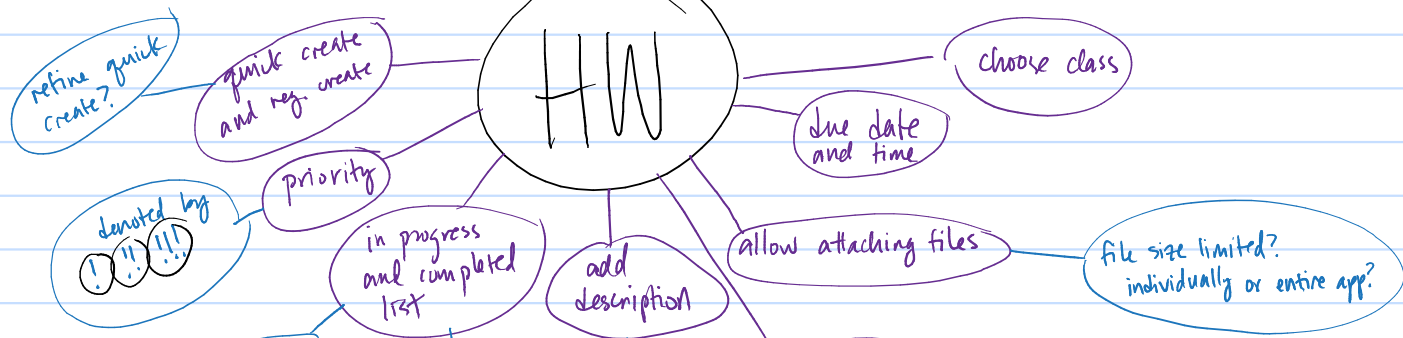

- overview (1st page)
- schedule
- hw
- upcoming exams
- gpa/grades calculator?

Schedule

create a new semester/quarter
- allow user to name new term
- date user attends institution

add holidays
- user can input
- will assume classes won't be in session

add classes
- Color coded: user can only select preset colors
- date attending @ institution
- acts as folder which so user doesn't have to reinput same info

customizing classes
- location
  - building
  - room #
- add instructor/s
- days class is in session: checkmarks add flexibility
- indicate if lecture, lab, discussion, etc. (include graphics?)
- time
- prerendered graphics to choose from. max?
- need to come up with samples

HW

- refine quick create?
- quick create and reg. create
- priority
  - denoted by
  - ! !! !!!
- in progress and completed list
  - in-progress
    allow user to view the list as
    ↳ date due
    ↳ priority
    ↳ class
    ↳ other if no class
  - add complete check @ bottom
    - prompt user if they are sure its complete
      - FOOL PROOF
   if chosen by accident, user can go to "complete" list and uncheck
- add description
  - no limit
- choose class
- due date and time
- allow attaching files
  - file size limited? individually or entire app?
- reminders
  - added to overview?
  - allow multiple instances
    ↳ reminder #1
    ↳ reminder #2
    ↳ etc...
    - prompt user when they want to be notified
      ↳ 7 days before
      ↳ 8 hours before
      ↳ 1 hour before
        etc...

Overview

grades/ GPA?
